| Minutes: | | |
| Topic | Summary of Discussion/Decision | |
| Discuss how we can make a budgeting app that is superior considering there are already many out there. | In order to be better, we have decided to automate the input of data. Any financial decision the user makes is gathered and plugged into the database. This database is then used to make suggestions on how the user can be financially healthy. | |
| Discuss design constraints and requirements. | We have decided to focus on platform compatibility, database analysis, a user-friendly interface and goal tracking. | |
